BE THE LIGHT

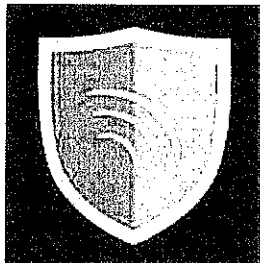

6<sup>th</sup> February 2017

Dear Year 5 Parents

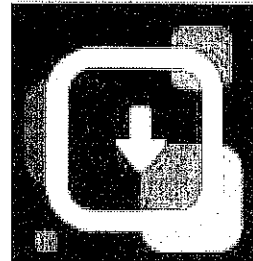

After a successful introduction of AirWatch to the students in 2016, we have decided to use this process again in 2017.

AirWatch is a Mobile Application Management System that allows us to deploy and manage applications while protecting user privacy and security.

Families are asked to download the free AirWatch Agent App from the App Store.

Air Watch Agent

School App

The AirWatch Agent App will install first and once the process is completed the School App logo will appear next. Once this occurs the required Apps will start downloading.

We can then use the App to organise the required Apps on the student iPads. When the student leaves the school, the App can be easily deleted. The school will cover the cost of any Apps that require purchasing.

Parents and families are still able to purchase and install any other Apps they wish, but you are reminded to be conscious of storage if your iPad is 32GB and lower.

Thank you for your continued support of the program and we look forward the sustained benefits this BYOi program is bringing to our staff, students and community.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Matt Egan-Richards'.
